**You Lead,
We Build**

Our Services

Integrations

Seamless integration with third-party platforms, learning systems, communication tools, and enterprise software.

Single Sign-On (SSO)

Secure authentication using SAML, OAuth, OIDC, and enterprise identity providers.

Cloud Computing

Design, implementation, and management of scalable cloud and hybrid environments on AWS and Azure.

API Development

Modern RESTful API development and legacy SOAP-to-REST migrations for reliable system communication.

Databases

Design, optimization, and management of relational and NoSQL databases for performance and scalability.

Big Data

Implementation and maintenance of data streaming, analytics, and big data infrastructure solutions.

**Sector
Overview**

Telecommunications Network Intelligence

COMPRSA's telecommunications solutions span carrier networks, next-generation networking, satellite engineering, video streaming, and mission-critical voice communications. Our expertise includes network testing, assurance, and performance optimization to ensure reliability at scale. We help telecom organizations build, modernize, and operate resilient networks that support high-quality, always-on connectivity.

Human Capital Management Solutions

COMPRSA delivers end-to-end Human Capital Management solutions, spanning recruiting, onboarding, payroll, time and attendance, and talent management. Our expertise across HR platforms, PEO support, and workforce analytics helps organizations streamline operations, ensure compliance, and make smarter, data-driven people decisions at scale.

Artificial Intelligence Intelligent *Systems*

COMPRSA delivers AI solutions as a service, specializing in IBM Watson and Google Vertex AI. Designed to work reliably for large organizations, not just small teams or one-off use cases, our solutions follow responsible and governed AI principles, ensuring security, transparency, and trust.

E-Learning Learning Platforms

COMPRSA delivers expertise in eLearning solutions spanning LMS platforms, edtech systems, learning software for K-12, higher education, and enterprise training. Our services include course creation for certifications, compliance training, and workforce transformation initiatives. We help organizations build effective, engaging learning experiences that drive measurable outcomes

Healthcare Medical Tech

COMPRSA builds secure, reliable healthcare applications supporting wellness and nutrition, mental health, medical and dental practices, and weight management. Our solutions include medical referral platforms, EMS narcotic tracking systems, and specialized medical IT software. We help healthcare providers deliver better care through compliant, data-driven digital solutions.

Construction Project Intelligence

COMPRSA designs and maintains digital systems that support equipment rental, smart metering, and utility infrastructure operations. Our solutions include field inspection and workforce apps, construction bidding platforms, rental management software, and compliance reporting for buildings and strata. We help construction and infrastructure teams operate efficiently, safely, and at scale.

Agriculture Smart Farming

COMPRSA develops tailored agricultural software solutions for livestock, farming, and agribusiness, including auction platforms, clip capture, invoicing, RFID/BLE integration, and livestock real estate systems. Our expertise extends to wool and mohair, hide and skin processing, and logistics software for delivery route optimization. From farm operations to supply-chain management, we help agriculture businesses modernize and run more efficiently.
