PROJECTS DELIVERED

- Live truck data in Salesforce for a delivery fleet
- A Salesforce app for a financial services software company

Salesforce Integration Delivery

COMPRSA handles integration design, API development, testing and support to connect Salesforce with your existing systems.

Finance and Order Integration

Connect Salesforce to accounting and order systems, sharing customer details, orders and invoice data between platforms.

Marketing Platform Integration

Link Salesforce with marketing tools so contacts, leads and campaign information stays consistent across systems.

Vehicle and Equipment Data

Bring vehicle locations, equipment readings and job information from tracking systems into Salesforce records.

Custom API Development

Build APIs and integration logic that allow Salesforce to exchange data with legacy software and bespoke applications.

Third-Party App Integration

Connect software products to Salesforce through integration features that exchange the information each system needs.

Integration Development Support

COMPRSA developers can work with your team to build, test and maintain integrations using your existing tools and processes.
